

names.co.uk bring Office 365 and UK based support together

Worcester, UK - 04 June, 2014 - names.co.uk today announced the launch of a new service, Microsoft Office 365, positioning them as one of the first UK domain registrars to sell the subscription-based, online office, directly to customers.

The company focuses on equipping small business owners with the tools and training needed to develop an online business and Office 365's suite of online services compliments their product line of domain names, website building tools and web-hosting.

Stephen Ewart, Commercial Director, names.co.uk said, *"Adding Office 365 to our offering supports a high demand for a more convenient and manageable way of working. The reality is small business owners are constantly on the move, they are no longer bound by office walls. Office 365 gives them a new found freedom and a completely flexible work environment."*

With support teams based here in the UK, names.co.uk offers a free supported setup service so business owners can **get started immediately** with Office 365 and get their domain names validated and DNS records configured for them.

He continued, *"Business owners often find it challenging to find the time to set up online applications so for Office 365 we do it all for them and there is no disruption to day-to-day business. It can really make a difference knowing you have UK based support at the end of the phone if you need it."*

Office 365 brings together familiar Microsoft programmes such as Word and Excel and guarantees productivity on-the-go. Features include online video conferencing, mobile apps and real time document sharing.

Office apps such as Excel and PowerPoint are also available on iPads and are touch-friendly so users can carry out tasks such as editing, updating and creating documents whilst retaining the format whether on a desktop or iPad. There is also the facility to show PowerPoint presentations wirelessly.

Stephen added, *"It doesn't matter if you are sitting behind a desk, or on a train to France, or even in the middle of the school run, with Office 365 you can work, share, store and sync files from anywhere, on any device, including iPads."*

Office 365 from names.co.uk isn't restricted by business size or type, users simply choose a package to fit their business needs. OneDrive for Business, Exchange Online, Office Online, Office Pro Plus are the packages available.
